

Hinged litter bin made of steel with Ø5 mm holes treated with Ferrus, a protective process that guarantees high resistance to corrosion.

Ref.	A	Ø B	H	H1
PA600G	540	435	885	540

The Ferrus treatment consists of three layers applied after shot cleaning all impurities: an electrolytic bath, an epoxy coating and a grey RAL 7011 polyester paint coating.

Bin supported by a Ø40 mm tubular structure with an anchoring base and rectangular bases with two Ø12 mm holes to fix it to the ground.

Recommended anchoring: by means of four M8 expansion bolts depending on the surface and the project.
