

Chair with legs made of 8mm Corten steel sheet.
210 x 58 mm pine wood boards treated in vacuum pressure autoclave Class IV against woodworm, termites and insects.
Stainless steel screws.

Ref.	A	B	H	H1
UM311R	1850	575	810	500
UM311RS	460	575	810	5000
UM311S	460	440	500	500
UM311RD	3680	440	810	500
UM311 1840	440	500	500	

Recommended anchoring: by means of M10 expansion bolts depending on the surface and the project.

Note:

Natural wood “breathes” i.e. it absorbs humidity and releases it in dry atmospheres. It is therefore normal for cracks to appear in wood. This has no effect whatsoever on its strength and durability.

The rust of Corten steel evolves over time. Therefore, this material will rust sooner or later depending on the humidity and temperature levels.

Available in:

With epoxy primer coating and
Marson polyester feed.
